Connect® for EEE103

Student Guide
Fall 2026

About Your Course

Course Code	EEE103
Instructor Name	XJTLU Module Team (ML CS Lim)
Resource	CONNECT access for Engineering Circuit Analysis Edition: 10 Author: William Hayt, Jr.

Why Use Connect?

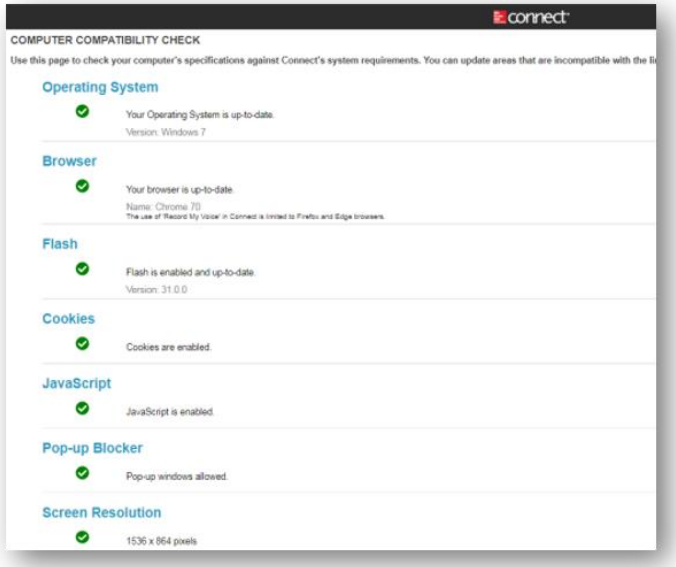

Connect is your digital learning platform that helps you study more efficiently and be more prepared for class.

You can:

- Optimize your study time & increase your grade potential
- Access your assignments & course resources in one place
- Focus on what you need to know with SmartBook, Connect's personalized learning tool
- Get immediate feedback & track your progress throughout the course

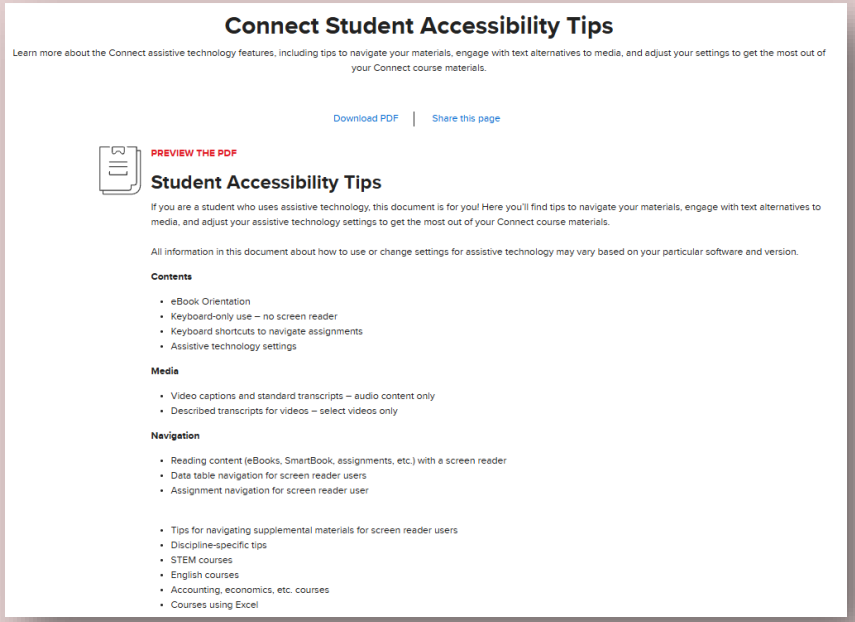

Compatibility Check

- Ensure your device is compatible by checking McGraw Hill System Requirements & Troubleshooting.
- **Clear browser cookies/ cache** if you are unable to load assignments.
- A laptop is recommended over a tablet or mobile for optimal user experience.

Accessibility Tips

If you are a student who uses assistive technology, visit Connect | Student Accessibility Tips to download Connect Accessibility Tips.

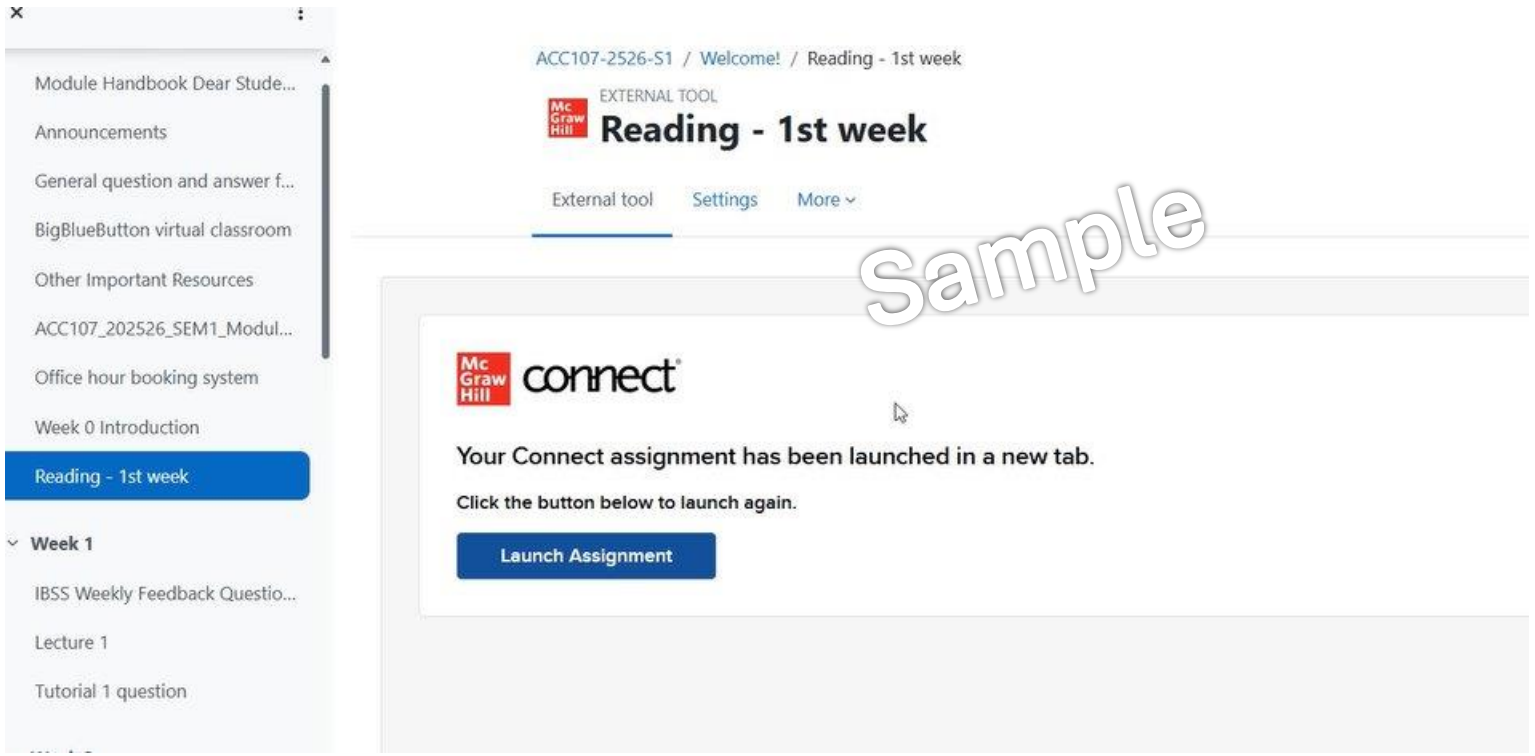

Connect Registration Steps

How to Register

STEP 1: Sign in your Learning Mall https://core.xjtlu.edu.cn

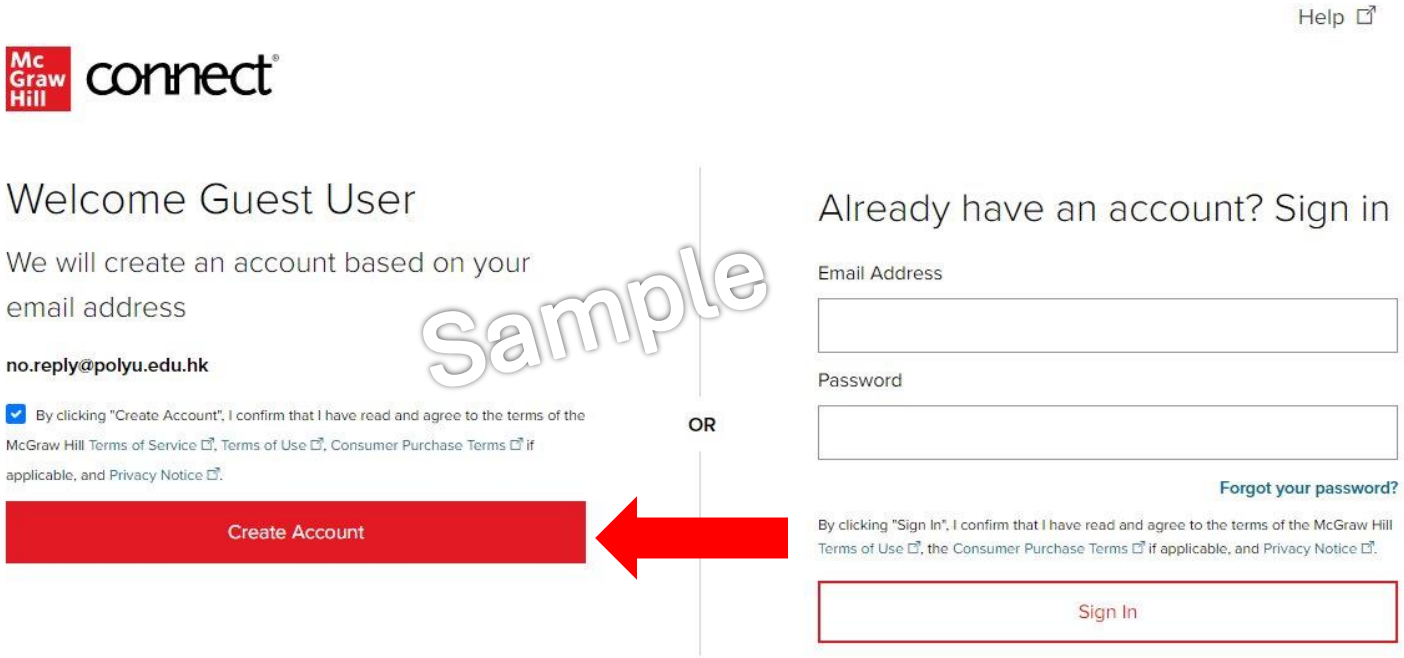

STEP 2: Go to your Course. Click on any McGraw Hill assignment link to start registration, e.g. Reading – 1st week

How to Register

STEP 3: If you registered **Connect** using school email address before, you will see “We have found an existing account” at left hand side. You can enter your password and click “Sign in”.

If you are new to **Connect**, you will see “We will create an account based on your email address”. Click “**Create Account**” to continue.

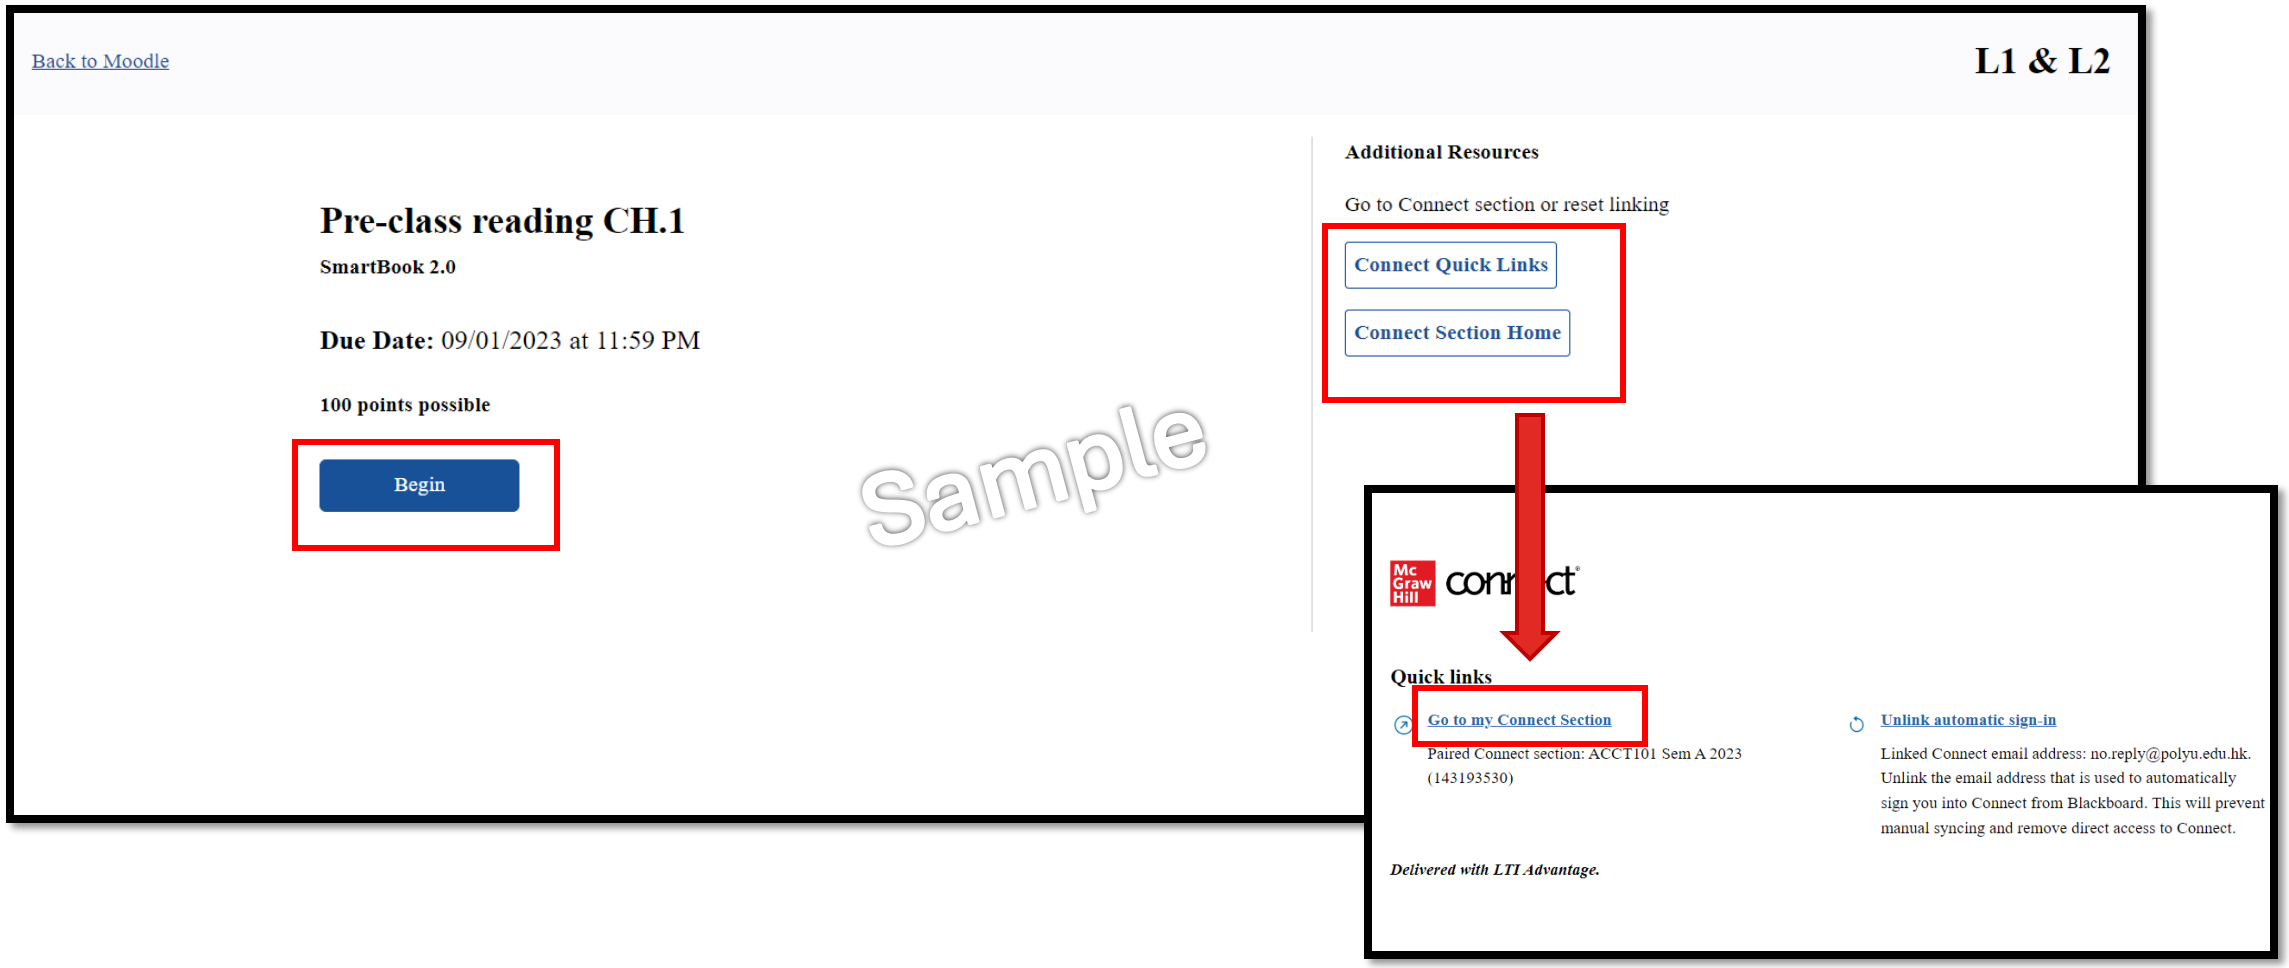

How to Register

STEP 4: Click "Complete Registration".

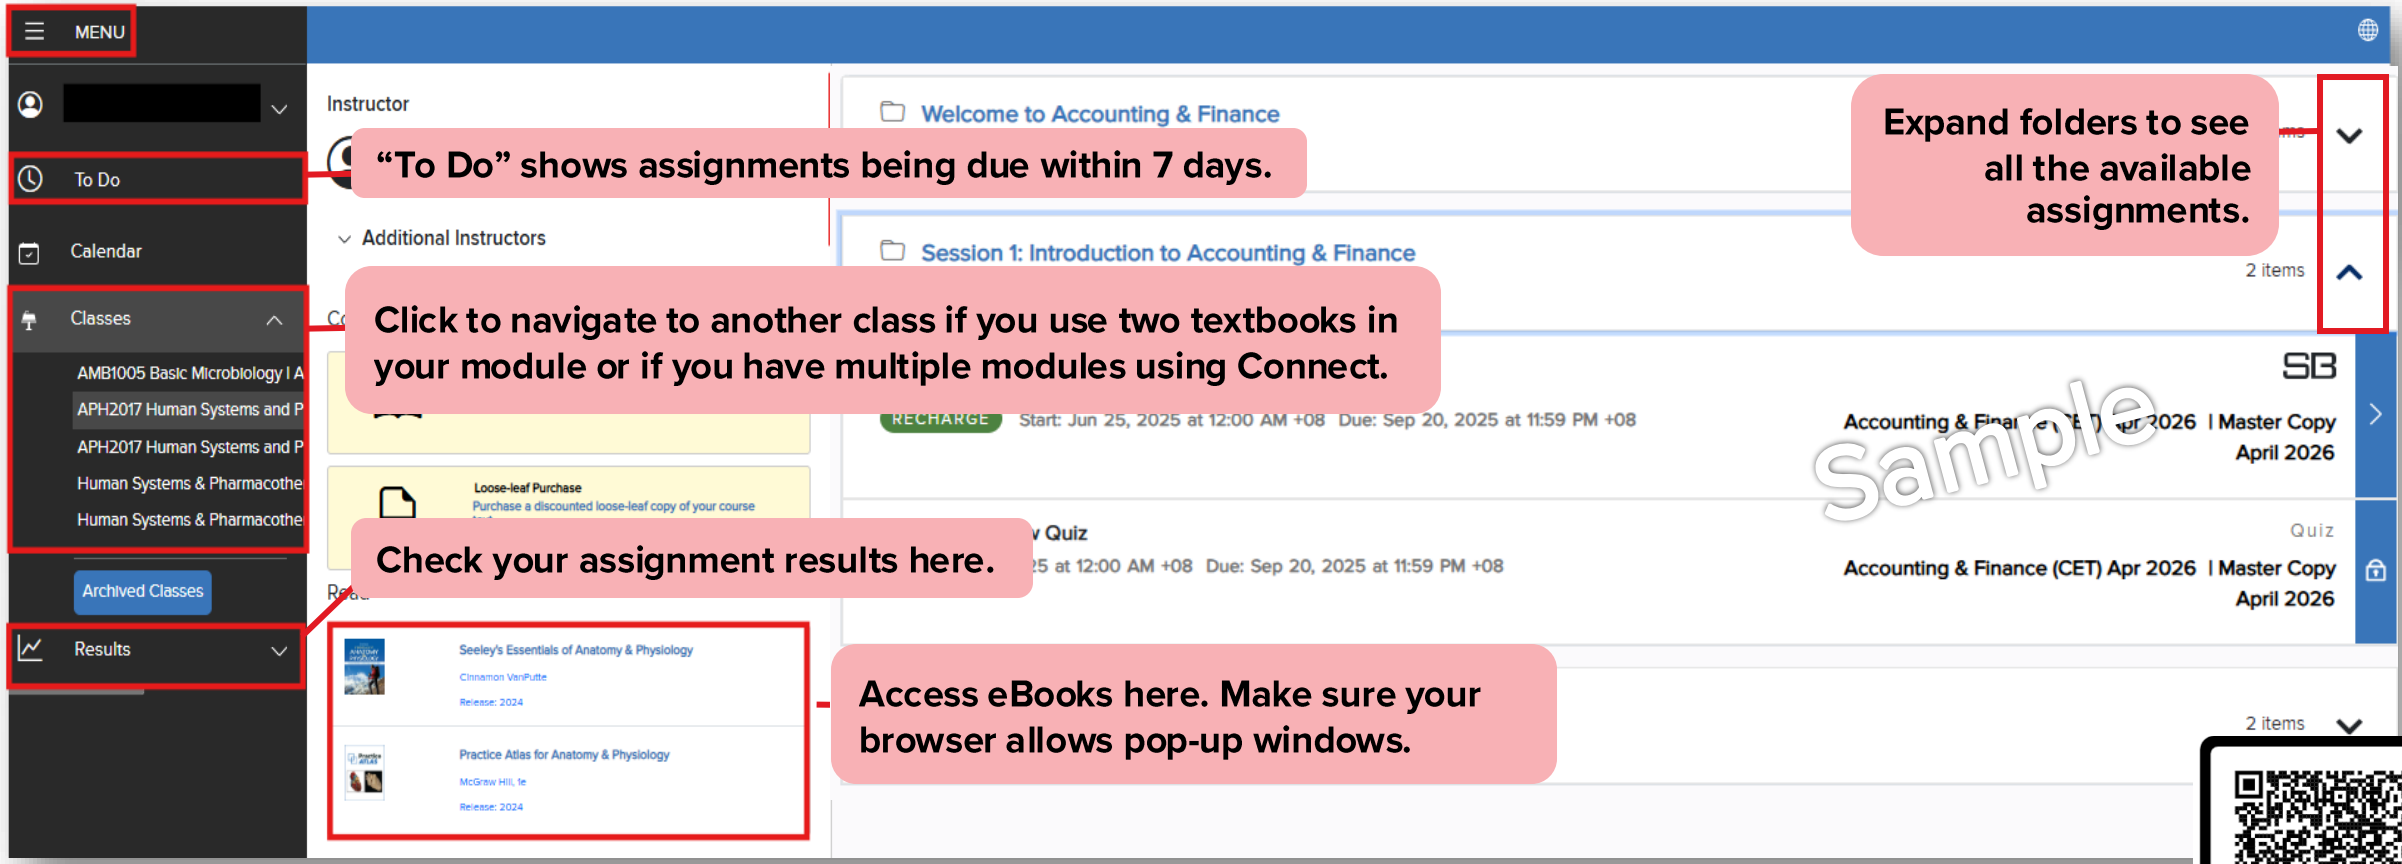

You can begin assignment now. You can also hit “Connect Quick Links” and then “Go to my Connect Section” on the right to access Connect section home for ebook access.

Connect Course Homepage

This is your course homepage. Click the “Menu” to enter your class and access assignments.

Using AI Reader in eBook

AI Reader boosts your understanding with the power of Generative AI.

Four ways to use AI Reader. Simply highlight the required areas and click on AI Reader icon in toolbar.

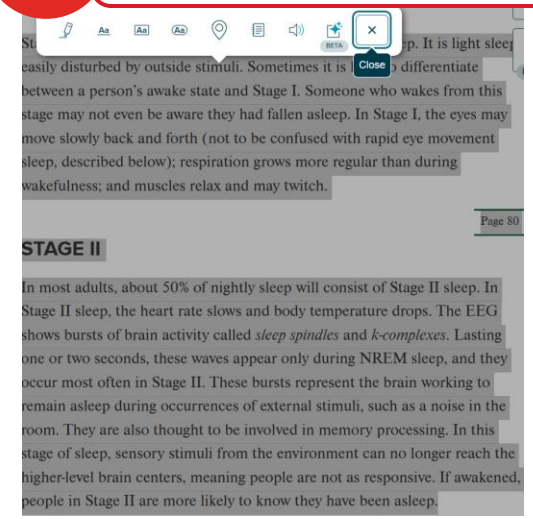

1 Expound complex terms/ words.

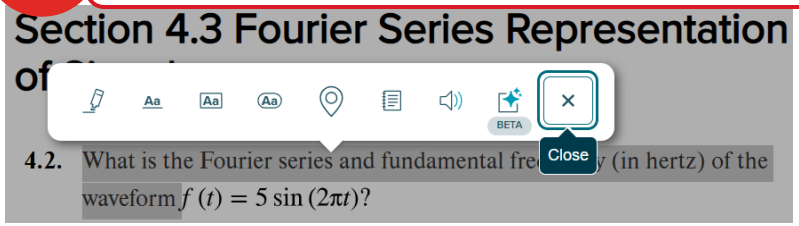

2 Interpret graphs, flowcharts, images, tables.

3 Summarise & simplify paragraphs.

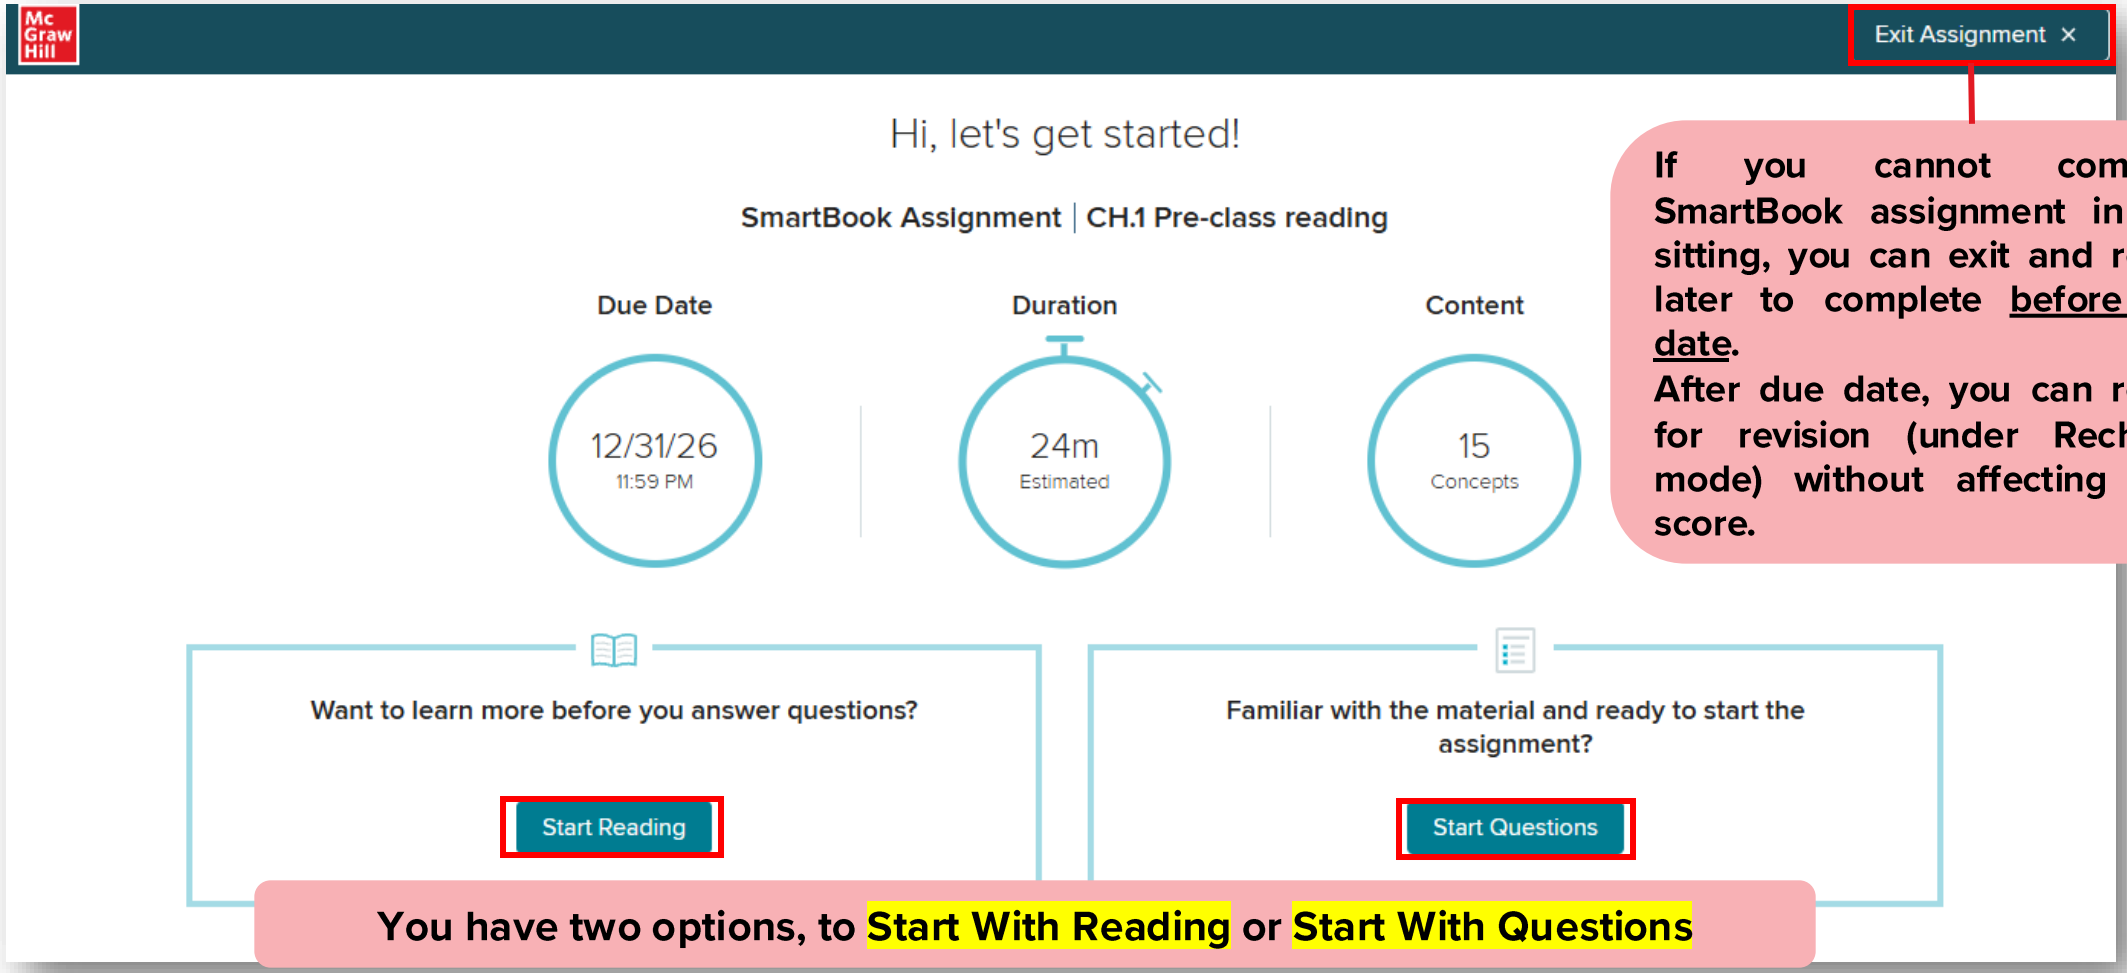

4 Get guidance on solving problems.

Completing Adaptive/ SmartBook Assignment

Completing Adaptive/ SmartBook Assignment

If you cannot complete SmartBook assignment in one sitting, you can exit and return later to complete before due date.
After due date, you can return for revision (under Recharge mode) without affecting your score.

You have two options, to Start With Reading or Start With Questions

SmartBook Reading

Exit, you will continue where you left off

You can go to Questions if you are ready

Adjust font size

Search tool

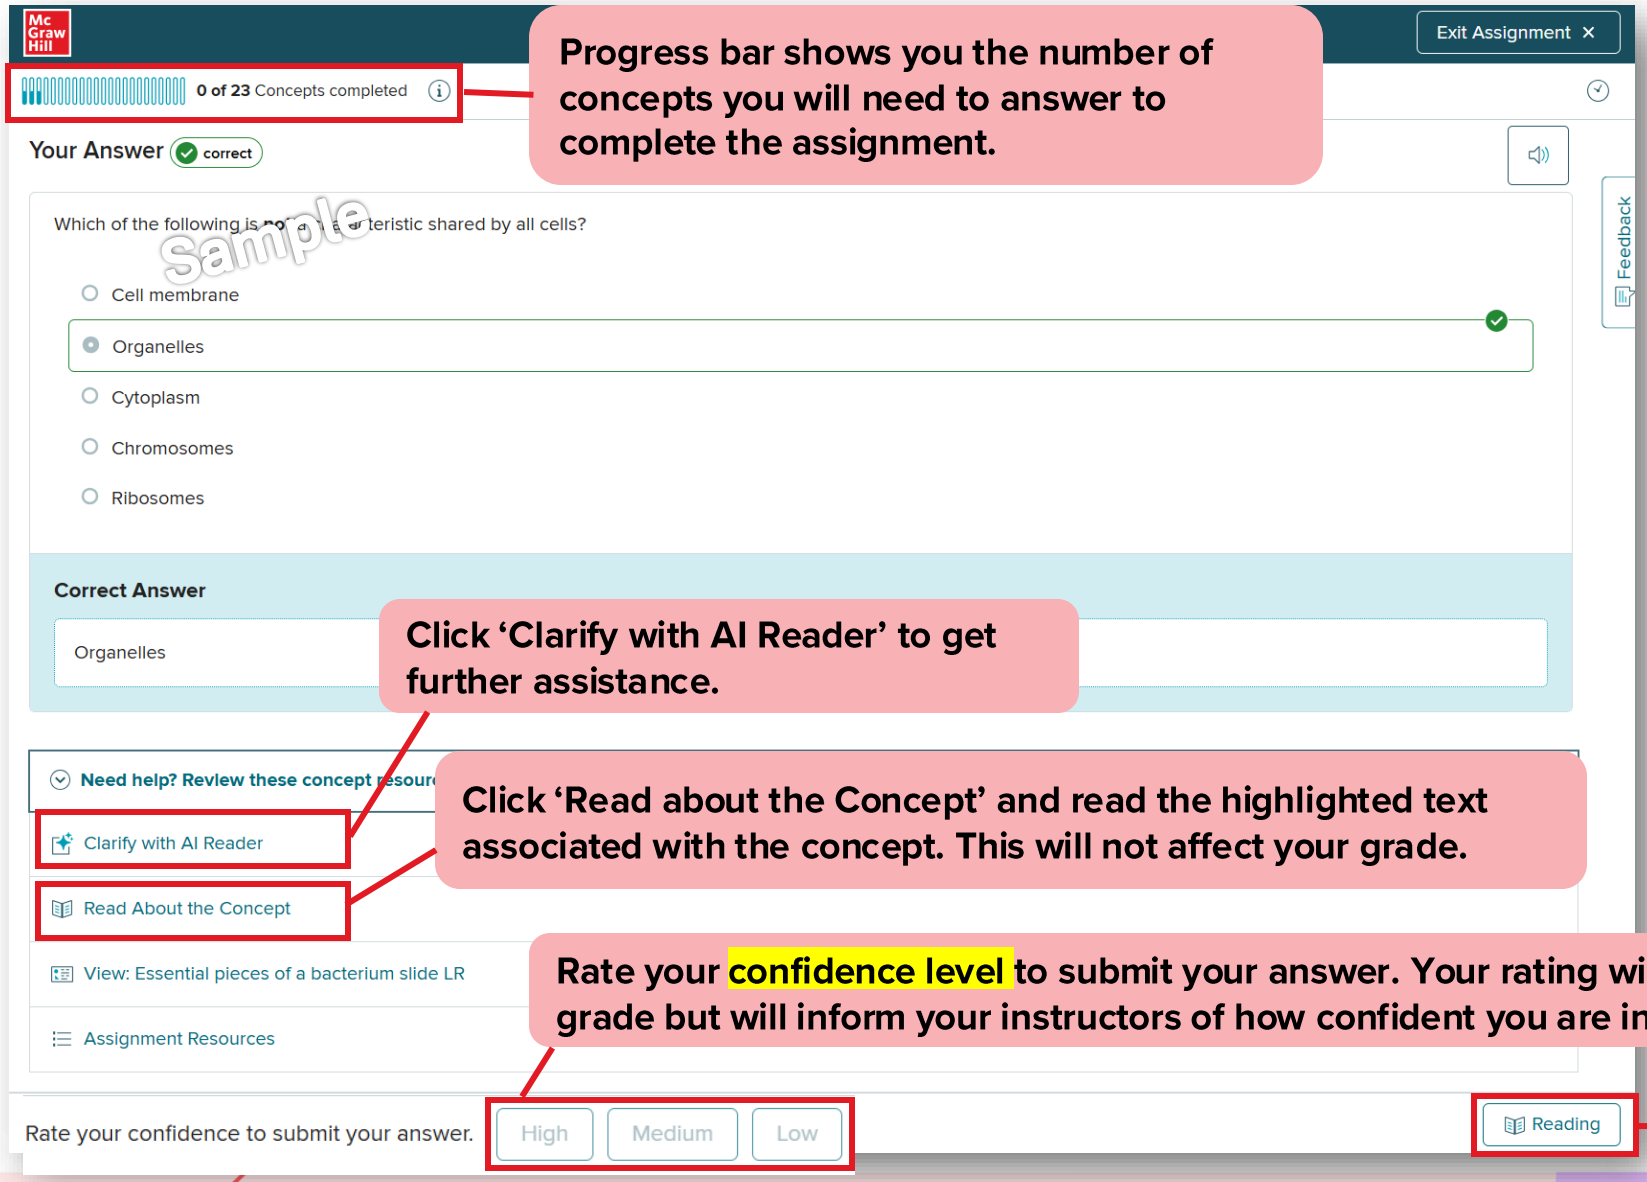

Go to next page for in-depth reading

Navigate the highlighted concepts determined by your instructor.

Read aloud

If students answer a question incorrectly and access the reading, the system will temporarily turn the highlight associated with that concept blue to indicate where they may want to focus. Once they move on, that highlight returns to yellow.

Completing SmartBook Assignment

Progress bar shows you the number of concepts you will need to answer to complete the assignment.

Click 'Clarify with AI Reader' to get further assistance.

Click 'Read about the Concept' and read the highlighted text associated with the concept. This will not affect your grade.

Rate your confidence level to submit your answer. Your rating will not affect your grade but will inform your instructors of how confident you are in your answers.

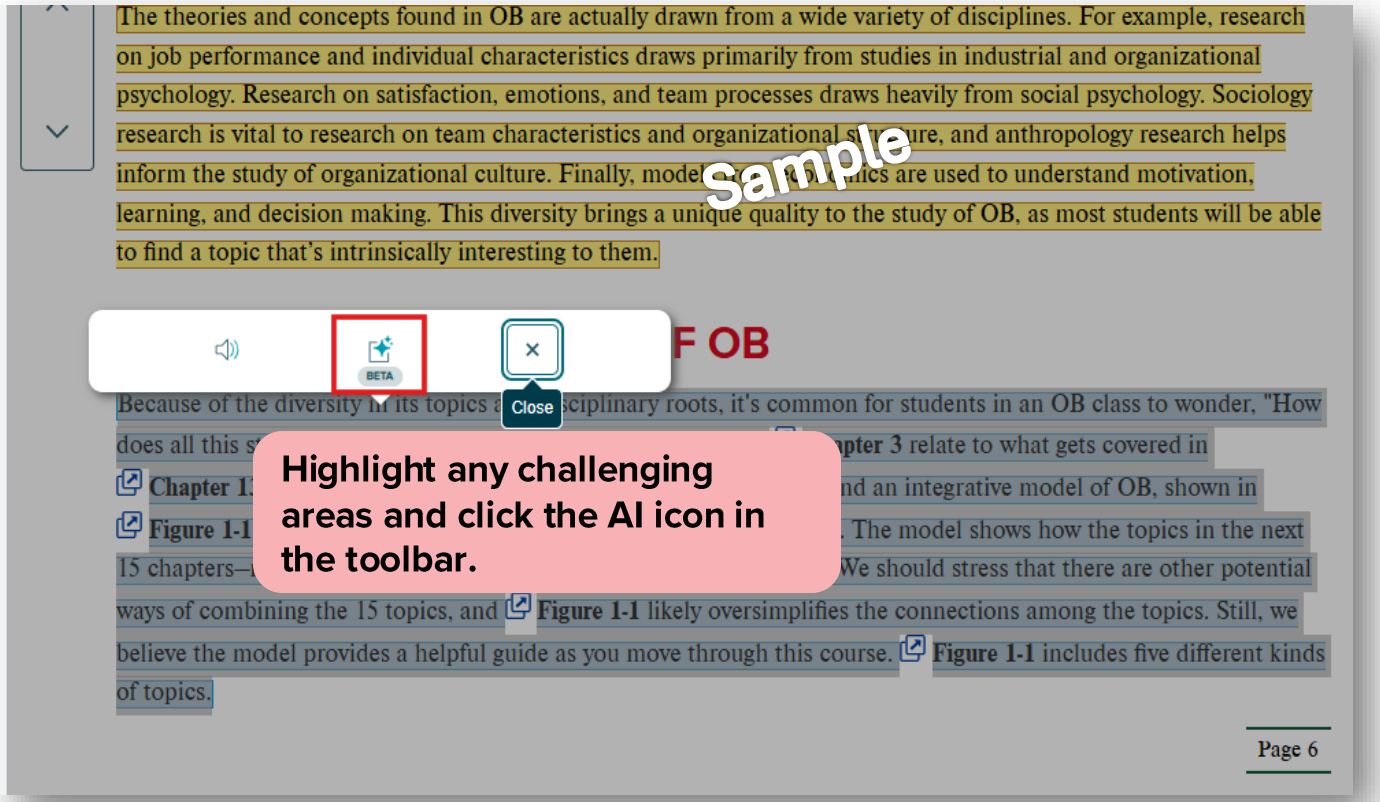

Refer to eBook anytime while completing questions.

How to complete SmartBook assignments

AI Reader in SmartBook

Available within Adaptive/ SmartBook assignment, AI reader allows you to go deeper in your understanding of the concepts your instructor has assigned.

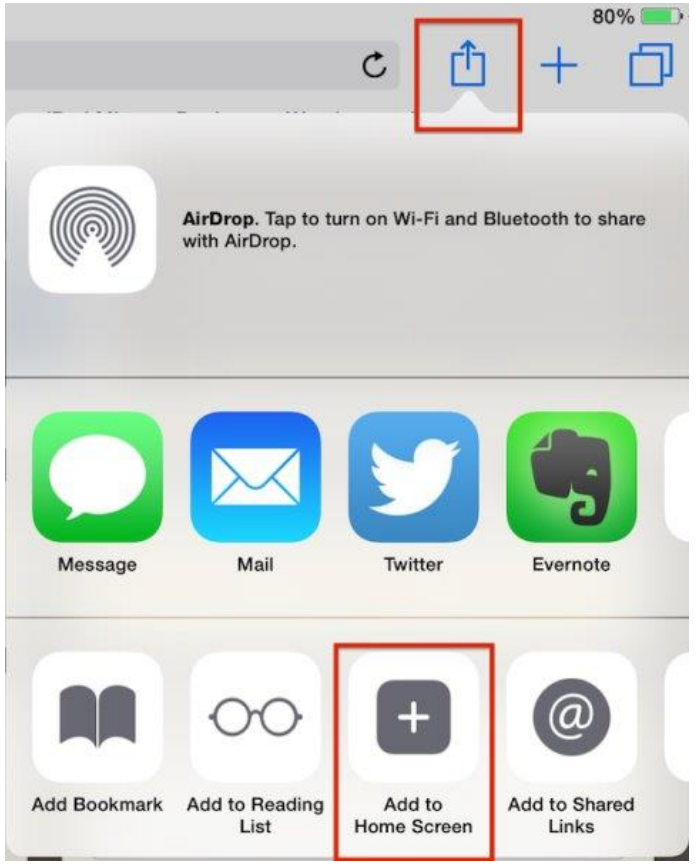

Best Practice for Tablet

For optimal user experience: Visit **McGraw Hill System Requirements for Tablet requirements**

Select "**Request Desktop Site**" for Google Chrome

Select "**Add to Home Screen**" for Safari.

Best Practice

- Use Google Chrome as your internet browser
- Clear your browser cache prior to the start of an assignment, simulation, quiz or exam.
- Complete a Computer Compatibility Check at Troubleshooting.
- Complete the assignment, simulation, quiz or exam on your laptop or desktop rather than a mobile device.

Reminders

- Connect should be loaded on ONE session of your browser and only ONE tab within your browser.
- Use an ethernet cable to directly connect your device to your internet modem for faster speeds.
- Limit the number of applications running and devices connected to your wireless internet while completing your assignment.
